The lead representative of ACE, Dr. Rosh Khan, shared, “As Guyana works to build capacity locally for the current and emerging needs of the country, this arrangement provides an immediate opportunity to solve the critical labour requirements in the oil and gas sector.”

He added, “It also creates a platform for internationally-certified personnel to train Guyanese. This is key for the successful transfer of knowledge and skills to our local workforce. It should also be noted that we look forward to working with all of the relevant authorities to ensure full compliance with local and international laws.”
