

Mr. d'Aguiar has not always found it very easy to control Mr. Burnham, but what he has been able to do is to use a very clear business brain as Chancellor of the Exchequer. He gave us a list of the conditions in which the country was found after Dr. Jagan's Government had ceased—civil servants had not been paid sometimes for two or three years; practically nothing was balanced in the way of budgets, which were all out of date, and much had to be done to try to improve these matters, which are only now reaching the sort of level which we would understand.
