Overview

The slum population of Guyana in 2022 reached 24 410 people, which is 0.985% more than in 2021, when it was 24 172. This is the first year of growth after a decline. According to the UN-Habitat statistics, since 2001, the number of people living in slums has decreased in 2.30 times. The minimum of Guyana was recorded in 2021, with a value of 24 172 people in slums. The maximum population living in slums was in 2001, when it reached 56 165 people. A household in a slum is defined as a group of people living under the same roof who lack one or more of the following conditions: access to clean water, adequate sanitation, sufficient living space, durable housing, and security of tenure.
