

U.S. Embassy Guyana's Post

U.S. Embassy Guyana 
September 15 at 1:01 PM · 

The U.S. Embassy welcomed [Citibank US](#) to Guyana at a reception held at the U.S. Ambassador's residence, marking the inauguration of Citi's new representative office in the country. Citi is the first international bank to establish a representative office in Guyana, reflecting growing confidence in Guyana's economic trajectory.

Ambassador Theriot noted, "Citibank's decision to establish a representative office reflects confidence in Guyana and the opportunities its rapidly growing economy offers. As Guyana's economy expands and becomes increasingly integrated into global markets, strong financial institutions will be essential....Citi's presence will help strengthen connections between Guyanese businesses and international capital, support investment and trade, and bring global expertise to a growing private sector."

The United States remains committed to deepening our commercial relationship with Guyana and supporting partnerships that create opportunity, strengthen institutions, and contribute to sustainable economic growth.

Congratulations to Citibank and Guyana on this important milestone.
